STILES, The Photon STANTON'S BAZAAR, Westerly, R. I. based on alleged misstatement in the cabled application for the insurance. The plant had for some time leen protected by insurance of a number of well known and reputable companies, all legally authorized to transact business in Rhode Island, their policies aggregating \$375,000 on the plant and \$30,000 on the use and occupancy. These policies were cancelled in These policies were cancelled on March 9 of this year because of some difficulties in the matter of the pay-ment of the premiums.

The four companies regularly admitted to this country, namely, the Sun Insurance office of London, Niag-Sun insurance office of London, Niag-ara Fire of New York, London Assur-ance corporation and Concordia Fire of Milwaukee, made a settlement in the nature of a compromise on the fol-lowing basis: Sound value, \$314,698.91, loss and damage, \$163,998. The above 'sound value' was arrived at by re-ducing the values claimed in the proof of loss by 25 per cent, so that the four companies named admitted liabil-ity to the extent of 51.51 per cent, of ity to the extent of 51.51 per cent, of the face of their policies. With and Caused by the Other.

Sleep has been fittingly called "fired nature's sweet restorer." It is a condition in which the involuntary functions such as nutrition, circulation, respiration, etc., go on as usual, while the voluntary powers are in repose, and the system undergoes needed repairs. No one has ever been known to live longer than three weeks without sleep, it is as necessary in physical economy as food and drink.

Insomnia or chronic sleeplessness is a symptom with which nearly every sufferer from dyspepsia is annoyed, either constantly or at frequent and irregular intervals. This inability to sleep normally is a very prominent manifestation of indigestion, and exhibits itself in different forms. In some cases sleep may come at its accustomed time, but it does not bring repose, and the person awakens entirely too soon, and is unable to fall asleep again. In others, the victim lies awake practically all night, tossing and rolling, and finally drops into a troubled and unrestful slumber at daybreak. Still others, though they may apparently sleep soundly, are annoyed with the incubus, or nightmare, with its horrors of overwhelming waves, falls from precipitious heights and attacks by infuriated and implacable monsters.

All of these distressing symptoms are traceable to an irritated and enfeebled stomach, and the same is true of grinding the teeth, and twitching and jerking of the muscles during sleep.

Insomnia is rarely a disease by ittion is based upon the fact that the cable application called the plant "sprinkled," and this, they assert, would imply that it was fully protected by automatic sprinklers, whereas such was not the case.

As a matter of fact, however, the survey made by the New Rugland bureau of united inspection showed that the plant was 74 per cent controlled. reau of united luspection showed that the plant was 54 per cent, equipped with sprinkler protection. William Beverly Winslow, receiver in New York for the Nichols & Langworthy Machine company, went to London in August to try to collect the insurance placed through Crane & Co. Thus far this has met with no success, and at-torneys in London have been instruct-ed to bring suits against 11 of these

No greater mistake than this could well be made, and the reckless use of such drugs has caused many a sudden death, while in other cases, even moderate use, has set up an incurable drug-using habit among those who resorted to the use of "sleeping powders."

To cure insomnia or sleeplessness the object should be to remove the cause, and as dyspepsia is the underlying cause in a large percentage of cases, no better or safer remedy can be employed than STUART'S DYS.
